GRADE 1 PROTECTION IN FIVE SIZES

A variety of sizes, ranging from 24 to 284 litres, meets every storage and capacity need. The 135 litre model is suitable for under the desk use.

A PRACTICAL, OFF-THE-SHELF SOLUTION

The Primus range is ready to use upon delivery and can be fixed to the floor, as the required bolts are included. For installation in locations with stairs, the door can be easily removed, which reduces the safe's overall weight by approximately 15%. The stylish dark grey colour provides an attractive appearance while the lever handle enhances user comfort.

DUAL-CERTIFIED PROTECTION

The Primus range has been certified EN 1143-1 in burglary resistance and EN 15659, LFS 30P for up to 30 minutes of fire resistance by the European Certification Board of Security (ECB•S). The Class A key lock and Class B high-security electronic lock are both certified EN 1300. The keyhole includes a small yet durable escutcheon, which provides an added protective plate.
