Let’s start with smart

No more missing keys or accidental lockouts, gone are the days where you fumble for keys in front of the door. The Mortise offers you fuss-free living with seamless security.

Grant access to your home even when you're away, set the validity of PIN codes and Bluetooth keys to ensure your property is secure after your guests leave.

Looks good, works better

Flexible entry modes include PIN codes and unlocking with Bluetooth via your smartphone. RFID tags, stickers and physical keys are available too to cater to your preferred mode of access.

Guests also do not need an additional app download to receive PIN codes. You can simply send it via Whatsapp, SMS, Facebook Messenger and more. You call the shots, we’ll roll with it.

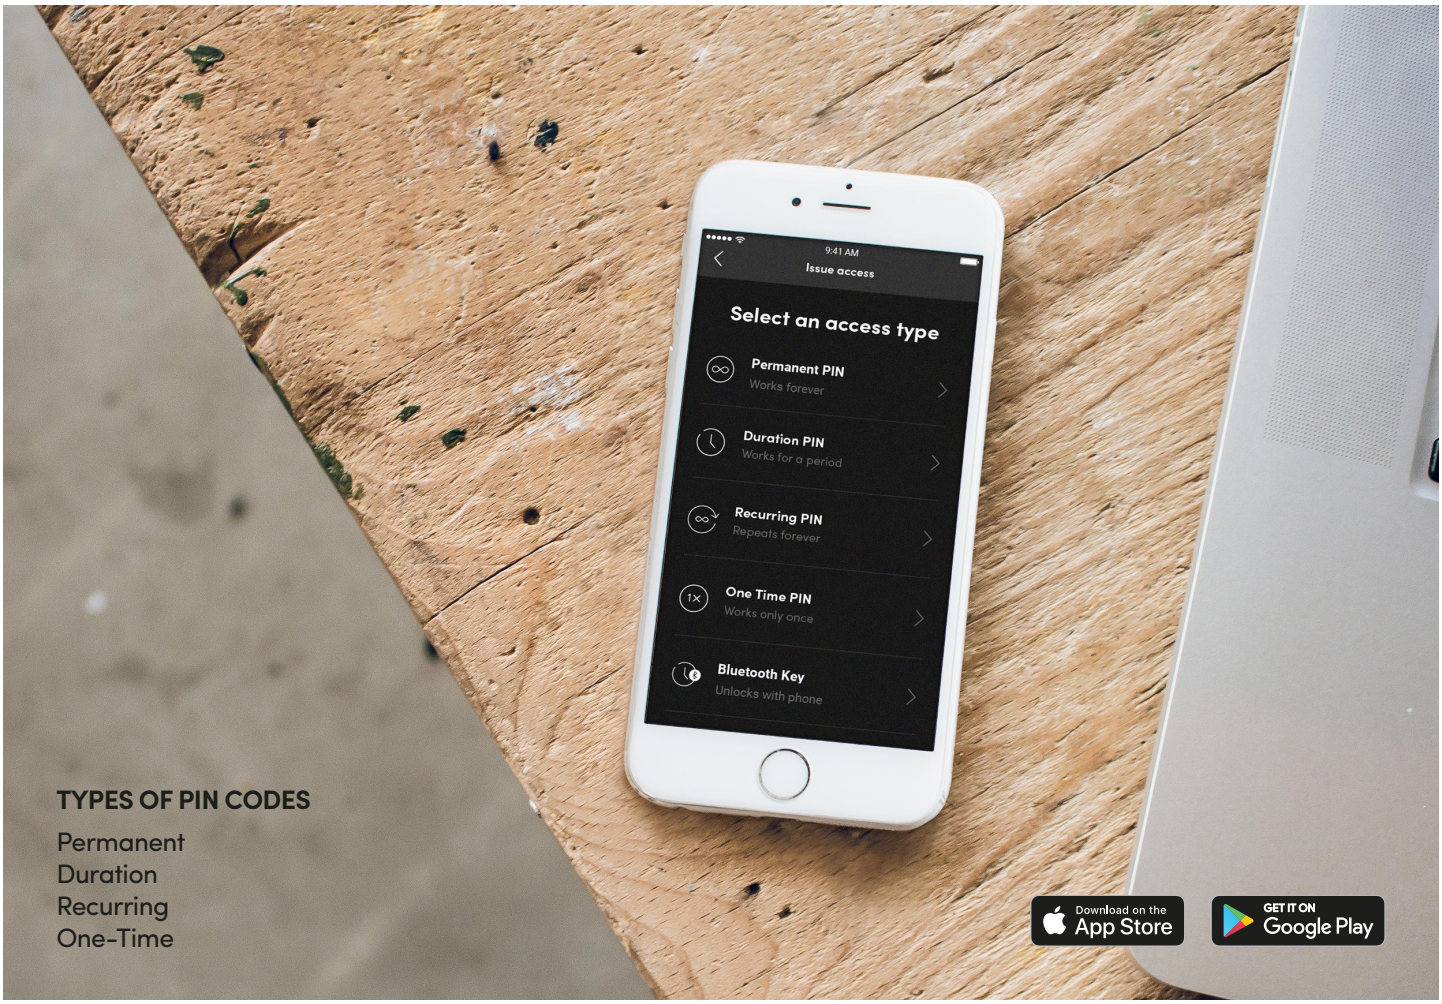
Access at your fingertips

All igloohome devices work with the igloohome mobile app so you can manage access in the palm of your hands. Customise the validity of your PIN codes and Bluetooth keys for different guests.

There's no need for you to be near the lock to do so. The innovative algoPIN™ technology lets you remotely grant access anytime, anywhere.

Syncs with Airbnb

Easily connect your Airbnb account via the igloohome app to automatically create and send PIN codes for each guest according to your listings.



Tough on the bad guys, easy on you

Keypad security lockout
Keypad is disabled after several incorrect PIN code attempts.

Masking security code
Conceal your actual PIN code by entering random digits before it.

Tamper Alarm
Alarm will sound if intruders try to pry the lock from the door.

Keypad disabled mode
Disable the keypad to prevent unwanted PIN code entry.

Keeping your loved ones safe

Child & pet safety function
Prevent any accidental unlocks from inside by activating it.

Fire alarm
The Mortise unlocks when it detects high temperature from inside.

Panic exit system
Swiftly exit during emergencies with a simple push of the handle.

Auto relock
The Mortise automatically relocks once the door is closed.

Defining the standards of keyless living

Passage mode
Turn auto relock off for greater convenience when needed.

Low battery alert
Prompts you intuitively to replace the batteries before they run out.

Volume control
Adjust the volume to suit your preferences.

Emergency jumpstart
Jumpstart with a 9V battery if batteries are drained.
